

Editorial Note

Alain Destexhe · Jonathan D. Victor

Published online: 7 July 2010
© Springer Science+Business Media, LLC 2010

The Editors would like to emphasize that the Journal's interest in methodological advances, especially statistical techniques, is not restricted to this Special Issue. We will continue to welcome such contributions, especially when coupled with conceptual novelty or application to data that yields insights into the function of the nervous system.

Editors-in-Chief, Journal of Computational Neuroscience
