*Journal of the Operational Research Society* (2006) **57**, 755. doi:10.1057/palgrave.jors.2602154

**Corrections to:** *Journal of the Operational Research Society* (2006) **57**, 692–702. doi:10.1057/palgrave.jors.2602042

In Robb and Silver (2006), there are two errors relating to inventory holding costs, namely, (i) in the paragraph covering both columns on page 694, the subscripts of the  $i$ 's on the fourth and sixth lines should be interchanged, and (ii) in the fifth line of the paragraph immediately following Equation (1) on page 695, the word 'possession' should be replaced with 'capital'.

The authors regret these errors, for which they take full responsibility. They are thankful to Lewis Cao, a post-graduate student at the University of Auckland, for finding the errors.
