---

Dear Teresa;

Yes you may upload the author's accepted version of the paper to the institutional repository.

Please see the rights that ACM authors have on the ACM Authors Rights webpage:

<https://authors.acm.org/main.html>

Sincerely,

Barbara

Barbara Ryan

Dear Barbara,

Thank you very much for your clarification to Prof Thiemann.

Can I check if we are still allowed to upload the author accepted manuscript to an institutional repository?

Let us know if this is possible at all,

With many thanks in advance,

Teresa

Dear Teresa,

Here is the answer I got:

"

Dear Peter Thiemann;

This paper does not have the option to be made open access. Invited Abstract Talks do not have the option to be made open access.

Open Access can only be chosen when the rights form is first filled out. If the rights form does not offer the option of open access, a paper is not eligible for open access.

Sincerely,

Barbara
