# 1.0 Introduction

*Australian Gambling Statistics* (AGS) is the official collection of Australian data on legalised regulated gambling. The AGS is produced by the Queensland Government Statistician's Office (QGSO) in cooperation with all state and territory racing and gaming authorities. These authorities provide data on turnover, expenditure and government revenue for each form of gambling within their jurisdiction. Where actual data are not available, the relevant authorities are encouraged to estimate the data and provide explanations of estimation methods.

The reference period for the 37<sup>th</sup> edition of AGS is the 2019–20 financial year. Timeseries are available back to 1994–95, however, may be affected by certain events such as the introduction of point of consumption (POC) tax.

The State, Product and Summary output tables should be read in conjunction with these Explanatory notes as they contain key information relating to background, definitions, jurisdiction specific legislation and other developments.

## 1.1. Background

The development of statistics on gambling on a national basis was formally proposed at the June 1983 Conference of Government Racing Officials held in Darwin. At this conference, members agreed to draw attention to the relative absence of reliable economic and social data on gambling, and resolved that this information be collected, collated and shared on a national basis.

Led by the existing statistical collections of the (then) Tasmanian Racing and Gaming Commission (the Commission), other state and territory governments developed their own statistical databases to assist in the compilation of a national gambling statistical record.

At the September 1983 Racing and Gaming Ministers' Conference held in Melbourne, it was resolved:

That the conference approves the establishment of a national statistical data bank and each state and territory agree to submit all available racing and gaming statistics in a consistent format to the Tasmanian racing and gaming commission for collation and analysis.

In line with the conference resolution, the Commission, with the assistance of a firm of economic consultants, extracted from published records significant quantities of data relating to gambling turnover in each state and territory since 1972. The first consolidation and assessment of these data was produced for the Racing and Gaming Ministers' Conference in late 1984. At the Commission's request, the report was made publicly available.

The Tasmanian Gaming Commission (the renamed Commission) continued to produce annual statistics until 2004, when QGSO (formerly the Office of Economic and Statistical Research) within Queensland Treasury, was endorsed by jurisdictional department heads to produce the publication on an ongoing basis.

## 1.2. Events affecting data

### Gambling policy and legislation

Gambling policy and legislation in Australia have traditionally been the role of the states and territories rather than the Commonwealth. Relevant state-based legislation is detailed in state and territory summaries in Section 3.

### COVID-19 pandemic

From 11 March 2020, when the World Health Organization declared a global pandemic in response to the spread of COVID-19, Australian and state and territory governments implemented border closures, travel restrictions, mandatory quarantine, business closures and social distancing measures in efforts to contain the spread of the virus. This resulted in changes in the availability of gambling activities in Australia, with land-based gambling venues temporarily closed and major national and international sporting codes suspended.

## Point of consumption tax

Changes in the way the wagering industry is structured, including the growth of online wagering, have led some jurisdictions to change the way they tax wagering. In July 2017, South Australia introduced a point of consumption (POC) tax on all wagers placed by South Australian residents, regardless of the location of the wagering operator. Soon after, the other states and the Australian Capital Territory introduced a POC tax. Only the Northern Territory remains without this tax on wagering services.

As a result of the introduction of POC tax and subsequent changes to the way wagering data are collected, detailed breakdowns for 'Wagering' are no longer reported in AGS and represent a break in series. Data, footnotes, and abbreviations for these detailed wagering categories are available in the 36<sup>th</sup> edition on the QGSO website [www.qgso.qld.gov.au](http://www.qgso.qld.gov.au) and in earlier editions available by emailing QGSO at [govstat@treasury.qld.gov.au](mailto:govstat@treasury.qld.gov.au).

The Northern Territory is the only jurisdiction not to introduce POC tax. To avoid double counting, an estimate of wagering turnover and expenditure figures for Northern Territory residents only has been reported in the 37<sup>th</sup> edition of AGS. In this regard, the 2019-20 Northern Territory figures also represent a break in series and comparisons with previous figures are not appropriate.

### 1.3. Cautionary note

While all care has been taken in the preparation of AGS, each jurisdiction has its own systems, processes and reporting methods, and the availability of data can vary between jurisdictions. Thus, care should be taken when comparing data between jurisdictions.

All tables should be read in conjunction with the Explanatory notes. In some instances, data contained in previous editions have been corrected or amended. These corrections or amendments are noted within the relevant table(s).

## 2.2. Glossary

The following terms are used in AGS:

Casino	Figures represent wagers at casinos and include wagers on table games, gaming machines and keno systems.
Casino turnover	For the purposes of this report, casino turnover is represented by handle, which is the amount of money exchanged for gaming chips at a gaming table. Unfortunately, it is not possible to measure the total amount wagered (including re-investment of winning bets) at table games. Therefore, care should be taken if analysing casino turnover figures.
Expenditure	These figures relate to the net amount lost or the amount wagered less the amount won. Alternatively, it is the gross profit due to the operators of each form of gambling.
Gambling	The placement of a wager or bet on the outcome of a future uncertain event. Gambling includes gaming and wagering activities. The statistics presented in this publication are for legalised regulated gambling. In addition, the statistics for each individual state or territory include turnover and expenditure generated by overseas and interstate visitors as well as those generated by residents of that state or territory.
Gaming	All legal forms of gambling other than wagering, such as lotteries, gaming machines, casino, interactive gaming and minor gaming.
Gaming machines	All jurisdictions, except Western Australia, have a state-wide gaming (poker) machine network operating in clubs and hotels. The data reported under this heading <u>exclude</u> gaming machine data from casinos.  Gaming machines accurately record the total value of bets on gaming machines, including bets made using credits won during play. Turnover is the amount of money bet, regardless of whether that money is won or lost. Turnover does not represent player losses. Thus, turnover is an actual figure for each jurisdiction. In most jurisdictions, operators must return at least 85 per cent of wagers to players as winnings, either by cash or a mixture of cash and product over the lifetime of the gaming machine. In some jurisdictions, gaming machines may be linked together to offer major jackpots.
Government revenue	The revenue received by state governments from gambling activities that are subject to state taxes and levies.
Gross household disposable income	Household disposable income (HDI) is the gross household income less: <ul style="list-style-type: none"> <li>• income tax payable</li> <li>• other current taxes on income, wealth etc.</li> <li>• consumer debt interest</li> <li>• interest payable by unincorporated enterprises and dwellings owned by persons</li> <li>• net non-life insurance premiums</li> <li>• other current transfers payable by households.</li> </ul>

When interpreting gambling figures as a proportion of HDI, by state and territory, users of the data should note that such data represent expenditure within the jurisdiction concerned, and therefore should not be adjusted for interstate or international gamblers. No relevant data are collected on interstate gamblers.

Queensland Government Statistician's Office

**Interactive gaming** Gambling on activities conducted via the internet. It specifically excludes wagering in the form of racing and sports betting, keno and lotteries via the internet. Interactive gambling services provided to Australian residents by an internet casino are banned under the Commonwealth *Interactive Gambling Act 2001* (IGA) which came into effect in August 2001.

**Keno** Keno is a game where a player wagers that their chosen numbers match any of the 20 numbers randomly selected from a group of 80 numbers via a computer system or a ball-draw device. Keno payouts are established by rules and consist of a fixed pay scale (independent of the total wager made on the game) and, in some cases, a jackpot component.

**Lotteries** Includes lotteries, lotto, pools and instant scratchies. In June 2018, pools was withdrawn from the Australian lottery market.

**Minor gaming** The collective name given to raffles, bingo, lucky envelopes and the like.

Queensland Government Statistician's Office

**Point of consumption tax (on Wagering)** A tax collected from betting operators in all states and territories, except the Northern Territory, to generate revenue from wagering. "Point of consumption" means the tax is payable where the bet was placed, although in some jurisdictions, operators are permitted to rely on the address information of account-based customers. Gambling products including gaming machines, casino games and lotteries are not subject to the tax. Also refer to Section 1.2.

**Population** Mean estimates of the population aged over 18 years are presented below. The same caveat relating to the influence of visitors on the estimates reported in the Household disposable income (HDI) tables is also relevant to the interpretation of those reported in the per capita tables.

**'Real' variables** All dollar figures are given in nominal terms except where a table is denoted as being in real terms. Real dollar figures have had the effects of inflation removed. These values are calculated by specifying a base year (in this instance 2019–20) and 'deflating' each previous year by the Consumer Price Index (CPI). This means that all data in a table showing real values may be compared directly, the effects of inflation having been removed.

The CPI is a measure of change over time in the retail price of a constant basket of goods and services which is representative of consumption patterns of employee households in metropolitan areas.

**Turnover** An expression used to describe the amount wagered. This does not include any additional charges that may also be paid at the point of purchase, such as selling agents' commission in the case of lotteries (except where noted in tables). Electronic gaming machine (EGM) turnover, relates to credits played in an EGM, rather than the amount of money inserted into the EGM.

**Wagering** All legal forms of gambling on racing, sporting events and other approved events (e.g., elections). Wagering includes all the racing and sports betting activities mentioned in Table 2.

- requirements for account closures
- prohibitions on certain inducements to gamble and direct marketing
- requirements to offer customers the ability to set a deposit limit.

The amendments also more clearly define the term inducement as it relates to the NSW specific prohibition on the advertising of inducements. This change addressed previous court rulings related to the term. Penalties for offences were also doubled.

In April 2020, changes to the declared betting events schedule allowed NSW betting service providers licensed in NSW to commence taking bets on certain eSport events for the first time.

## 3.2. Victoria

### Legislation

Legislation governing the regulation, supervision and control of gambling activities in Victoria includes:

- *Casino Control Act 1991*
- *Casino (Management Agreement) Act 1993*
- *Gambling Regulation Act 2003*
- *Racing Act 1958*
- *Victorian Commission for Gambling and Liquor Regulation (VCGLR) Act 2011.*

The Victorian legislation can be accessed from the Victorian Legislation and Parliamentary Documents website at <https://www.legislation.vic.gov.au/> under Victorian Law Today.

### New developments

#### Point of consumption (POC) tax

POC tax commenced in Victoria on 1 January 2019. The POC tax applied at a rate of eight per cent of the net wagering revenue derived from all wagering and betting activities by customers located in Victoria for the period 1 January 2019 to 30 June 2021. From 1 July 2021, the POC tax applies at a rate of ten per cent of the net wagering revenue derived from all wagering and betting activities by customers located in Victoria.

In Victoria, the face value of any free bets placed by a customer are considered part of net wagering revenue and net winnings paid in relation to free bets are considered part of winnings paid. As a result, the reported wagering expenditure will be higher than the actual net amount lost or the gross operator profit.

The 37<sup>th</sup> edition of the Australian gambling statistics reports full year results for the financial year (2019-20) in comparison to the previous 36<sup>th</sup> edition where only half year results (prior to POC tax) were included.

### General industry information

- Keno and retail Wagering outlets reopened on the 22 June 2020 after easing of restrictions
- Licensed hotels/clubs and the Melbourne Casino reopened on 09 November 2020 after easing of restrictions.

### Legislation

- *Authorised Betting Operations Act 2000*
- *Casino Act 1997*
- *Gaming Machines Act 1992*

### New developments

#### Gambling Review—Reform to SA gambling laws

As part of reforms to the regulation of gambling in South Australia undertaken in 2018, the Independent Gambling Authority (IGA) ceased operations and all gambling regulation, operational and enforcement responsibilities were transferred to Consumer and Business Services (CBS) from 1 December 2018.

As part of those reforms, the Attorney-General was required, by legislation, to undertake a broad review of all gambling regulation in SA and other aspects raised by retired Supreme Court Judge Tim Anderson QC in his Administrative Review of Gambling Regulation in South Australia, which was tabled in Parliament on 4 September 2018.

On 12 December 2019, State Parliament passed legislation to further significantly reform the regulation of gambling in South Australia.

Delivery of the reforms is scheduled to occur in stages to allow for operational changes and further consultation on different aspects of the changes.

Amendments will need to be made to the regulations under each of the gambling acts, the Advertising and Responsible Gambling Codes of Practice and the new concept of gambling administration guidelines are to be developed.

Community impact assessment guidelines will need to be developed for gaming machine licensing (hotels and clubs) only.

A project team has been formed to manage the implementation of these reforms. Relevant stakeholders will be consulted on these changes; however, this will take time and is expected to occur in stages during the second and third quarters of 2020.

It is proposed that all reforms will commence as a complete package in late 2020.

#### Key reforms – general

##### Administrative/New Regulatory Framework

The current *Gambling Administration Act 1995* will be repealed, and a new administrative and regulatory framework introduced under a new Act, the *Gambling Administration Act 2019*.

Regulations in support of the new Act will also be drafted.

Commencement of the new Act will also be subject to other matters including but not limited to—

- a review of the Advertising and Responsible Gambling Codes of Practice
- the replacement of prescription notices with Guidelines
- the implementation of an online solution to facilitate multi-venue barrings and changes to the length of barring period.

### Review and prescribe new Codes of Practice

A review of the current Advertising and Responsible Gambling Codes of Practice has commenced.

Following this review, it is proposed that stakeholders will be consulted on drafts of new Advertising and Responsible Gambling codes, which are contemporary and specifically apply to the gambling industry being regulated.

### Prescription of Gambling Administration Guidelines

New measures will require the Commissioner to issue guidelines in relation to requirements for the approval of systems and procedures designed to prevent gambling by children, as well as training courses to be undertaken by staff involved in betting operations for the purposes of the Codes of Practice.

A review of any current prescription notices issued under the *Authorised Betting Operations Act 2000* for these purposes will be undertaken.

Following this review, it is proposed that stakeholders are consulted on drafts of the new gambling administration guidelines which will replace the existing prescription notices.

### Training

New measures will require gambling providers' staff to undertake courses of training for the purposes of the Codes of Practice. Courses of training will need to be approved by the Commissioner.

As part of the review of the codes of practice, any proposed changes to training requirements will be evaluated, and stakeholders consulted, prior to approval being given by the Commissioner.

### Barring orders

Changes will need to be made to the online barring system, to allow both a gambling provider and the Commissioner to make barring orders in respect to:

- single and multiple venues
- for periods greater than 3 months (licensee) or 3 years (Commissioner).

CBS will consult with stakeholders on the development and roll out of any IT solutions and on regulations governing the implementation of these barring changes.

### Requirement to notify of changes to prescribed particulars

To ensure that gambling providers' records remain accurate and up to date, they will need to notify of any changes to:

- any address for service or other email address
- telephone number
- street address or postal address
- any other particulars of a kind prescribed by the regulations.

A review of current gambling providers' records will be undertaken and scoping of the development of an IT solution, possibly through an online portal, to allow operators to maintain the information relevant to their licence or authorisation.

### Requirements to be fit and proper

Changes will mean that when the Commissioner is considering granting or renewing an on-course totalisator betting licence, bookmakers licence or agents licence, be satisfied that the applicant is a fit and proper person to hold the licence.

The Commissioner must also be satisfied that a person seeking to be approved as a designated person under a major betting operations licence is also a fit and proper person to become a designated person in relation to the licensee.

### Lottery and trade promotion licensing

Changes will also be made to the way that various lotteries and trade promotions are licensed.

The current provisions under the existing *Lottery and Gaming Act 1936* will be repealed and a new licensing and regulatory framework established under the *Lotteries Act 2019*.

Stakeholders will be consulted on these changes including the drafting of new regulations, which will govern the conduct of lotteries and trade promotions under the new *Lotteries Act 2019*.

### **Key reforms specific to gaming machine licensees (hotels and clubs)**

#### Prescription of Gambling Administration Guidelines

Systems operated in connection with gaming machines, as well as training courses to be undertaken by gaming managers and gaming employees, must be approved by the Commissioner.

A review of current prescription notices issued under the *Gaming Machines Act 1992* for these purposes will be undertaken. Following this review, it is proposed that stakeholders are to be consulted on the drafts of the new gambling administration guidelines which will replace prescription notices for:

- account based cashless gaming systems
- automated risk monitoring systems
- courses of training.

It is proposed that new guidelines will be drafted in support of other reform measures including:

- requirements for the approval of facial recognition systems
- requirements for the approval of banknote/ticket-enabled devices
- any other matters which are relevant to operations under a gambling act.

#### Barring orders and facial recognition

In support of new facial recognition technology requirements for certain gaming venues operating gaming machines with banknote acceptors, an IT solution will need to be developed to enable facial images held within the barring database to be checked by facial recognition systems approved for installation in gaming venues.

Stakeholders will be consulted on the development and roll out of any IT solutions, on regulations and guidelines governing the implementation of these barring changes, and the installation of facial recognition systems in venues.

#### Cash facilities limitations

Access to cash using any one cash facility on the licensed premises during a 24-hour period will be limited to \$250. This means that cash withdrawals using EFTPOS will be limited to \$250 per card, per 24-hour period. Amounts accessed through EFTPOS will be in addition to the use of ATMs that also have a limit of \$250 per card, per 24-hour period.

Venue operators will be responsible for ensuring that cash facilities on the licensed premises are compliant with the new \$250 limit.

#### Banknote Acceptors / Ticket Enabled Devices

Gaming machines will be able to be operated using banknotes as well as coin. Banknote denominations of up to \$50 will be allowed, subject to a credit balance limit of \$100. This means that no additional banknotes will be able to be inserted into the gaming machine until the cash value of the credit balance of the gaming machine drops below \$100.

While an approved ticket printer device will also be able to be fitted to gaming machines to allow players to redeem credits in the form of a barcoded ticket instead of coin, the operation of gaming machines by the insertion of a ticket (commonly known as 'ticket-in ticket-out' or TITO) will be allowed if prescribed by regulation.

In addition to banknote acceptors and ticket-printer devices being included under the regulations as prescribed components of gaming machines, regulations and gambling administration guidelines governing the technical requirements, installation and operation of such devices will need to be drafted.

Programming changes to the gaming machine monitoring system operated by the Independent Gaming Corporation (IGC) will be necessary. Existing gaming machines (if capable of supporting banknote acceptors) may also need to be upgraded or new QCOM compliant gaming machines installed if licensees wish to operate gaming machines with banknote acceptors and ticket enable devices.

#### Facial recognition technology

In support of new facial recognition technology (FRT) requirements for certain licensees operating gaming machines with banknote acceptors, and to ensure compliance with new licence conditions, an IT solution is being considered to enable facial images held within the barring database to be checked by new facial recognition systems approved for installation in venues.

Regulations governing the use of these facial images and gambling administration guidelines governing the approval, installation and operation of such systems will also need to be drafted to support development of FRT by system providers and the installation and operation of FRT by licensees.

Following the evaluation of any technical requirements, stakeholders will be consulted on the drafting of regulations and guidelines to support the rollout and use of FRT.

#### Prohibition of links between dealers and other licensees

The current prohibition on links between the holders of gaming machine dealers' licences and gaming machine service licences is to be repealed.

It is proposed that this provision will commence in advance of the wider gambling reforms to allow gaming machine dealers to make the relevant applications and seek approval of persons to be gaming machine technicians in contemplation of the rollout of new gaming machines and technology.

This will allow for work to be undertaken on gaming machines in preparation for the commencement of related provisions in late 2020.

#### Designated applications and community impact assessment guidelines

The current Social Effect Inquiry Principles which are prescribed to govern applications for new gaming machine licences will be replaced with the concept of a Community Impact test, consistent with the test implemented through recent amendments to the *Liquor Licensing Act 1997*.

Following consultation with stakeholders, new "Community Impact Assessment Guidelines" will be issued to assist applicants for new gaming machine licences and any other applications that the Commissioner determines to be designated applications.

#### Approved trading system—intention to reduce gaming machine numbers

State Parliament has signaled its intention to maintain the reduction in the number of gaming machines operating in South Australia by including within the *Gaming Machines Act 1992* a "statutory objective" prescribed by regulation (i.e. to reduce the number of gaming machines to a number not exceeding, 13,081).

In accordance with the reform legislation, a review of the current trading system is required to be undertaken. To allow significant time for the impact of the reform package to be evaluated and considered as part of any recommendations, the review must be completed, and a report provided to the Government by 12 December 2022.

In the meantime, the current trading system will remain available to licensees to buy and sell gaming machine entitlements.

### Removal of gaming machine licences (Relocation)

A gaming machine licence will be able to be removed and gaming machine entitlements reallocated from one set of premises to another, with the associated liquor licence if both premises are in the same 'locality', and in the case of a designated application possibly due to the scale and scope of the new premises, the applicant satisfies the new community impact assessment guide.

The definition of 'locality' is to be considered as part of the consultation process and drafting of community impact assessment guidelines.

### Provisions relating to gaming machine licences held by clubs

Certain administrative measures governing the amalgamation and transfer of certain gaming machine licences and gaming machine entitlements, held by clubs, will be introduced.

Consultation will take place with the club industry for implementation of club specific administrative arrangements.

### Approval of games and gaming machines

The current fixed time limits on the approval of games and gaming machines (five year and ten-year approval limits respectively) are to be repealed.

New measures will however be introduced which will allow the Commissioner to vary or revoke the approval of a game or gaming machine.

### Approval of certain systems to be operated in connection with gaming machines

Certain systems will be operated in connection with gaming machines (e.g. account based cashless gaming systems and automated risk monitoring systems etc.) must be approved by the Commissioner and must comply with the requirements of the Act and any applicable gambling administration guidelines.

The existing automated risk monitoring system, recognised under the *Gaming Machines Act 1992* will continue to be taken to be an approved system.

### Approval of responsible gambling agreements

Changes to gaming machine licence conditions will mean that gaming operations must not be conducted unless the licensee has entered into a responsible gambling agreement with an approved industry body.

Club Safe and Gaming Care which are industry bodies currently recognised under the *Gaming Machines Act 1992*, will continue to be taken to be an approved industry body.

The form of responsible gambling agreement will however need to be approved.

### Licence conditions

Changes to gaming machine licence conditions will mean that:

- the licensee must not conduct gaming operations unless the licensee has entered into a responsible gambling agreement with an approved industry body
- the licensee must, on the request of the Commissioner for the purposes of gambling research, provide to the Commissioner information recorded by certain approved systems (i.e. account based cashless gaming system and automated risk monitoring system etc.)
- in the case of a licence authorising the operation of 30 or more gaming machines any one of which may be operated by the insertion of a banknote:
  - i. that the licensee must, for the purposes of identifying barred persons who are about to enter a gaming area, operate an approved facial recognition system in accordance with any requirements prescribed by the

- regulations; and
- ii. that the licensee must not allow a person to enter a gaming area unless the licensee has caused a record of the person's facial image to be made by means of an approved facial recognition system in accordance with any requirements prescribed by the regulations; and
- iii. that the licensee must ensure that gaming managers and gaming employees have undertaken approved training courses in accordance with any requirements under the relevant responsible gambling codes of practice.

#### Applications and submissions

The way certain gaming applications are to be made, advertised and be subject to objection (by submission) is to be aligned with measures recently introduced under the *Liquor Licensing Act 1997*.

#### Unclaimed winnings

New systems and processes to enable licensees to pay unclaimed winnings from gaming machines and monies from decommissioned gaming machine jackpots above a prescribed amount are to be developed.

Regulations will need to be drafted to prescribe the amount below which monies are not required to be forfeited to the Commissioner or paid to the Gamblers' Rehabilitation Fund.

#### Recovery of administration costs

The reform package includes a requirement that the Commissioner must on an annual basis recover from licensees the costs associated with administering and regulating the *Gaming Machines Act 1992*.

The commencement of any cost recovery model is expected to be deferred for two years after the commencement of the reform package.

#### Lottery and trade promotion licensing

Changes will also be made to the way that various lotteries and trade promotions are licensed.

The current provisions under the existing *Lottery and Gaming Act 1936* will be repealed and a new licensing and regulatory framework established under the *Lotteries Act 2019*.

Stakeholders will be consulted on these changes including the drafting of new regulations which will govern the conduct of lotteries and trade promotions under the new *Lotteries Act 2019*.

### **General industry information**

On 22 March 2020, the Prime Minister of Australia (Prime Minister) announced a restriction on, *inter alia*, licensed hotels and clubs in Australia from opening from midday local time 23 March 2020 to assist in slowing down the spread of coronavirus (COVID-19).

To put the Prime Minister's announcement into effect in South Australia, on the same day, South Australia's Commissioner of Police (Commissioner of Police), as State Co-ordinator for the State of South Australia pursuant to section 14 of the *Emergency Management Act 2004* declared pursuant to section 23 of that Act that a Major Emergency is occurring in response of the outbreak of COVID-19 within South Australia.

The Commissioner of Police directed certain premises to close as far as it is necessary to prohibit access to consumers or members of the public and any consumer and member of the public must not enter those premises.

Hotels, clubs, the Adelaide Casino, TAB agencies and racecourses were included in the list of premises the Commissioner of Police ordered to close to the public (except from takeaway services). Therefore, no gambling took place at those venues until they were permitted to reopen on 29 June 2020 with restrictions on the number of members of the public who could attend them at any one time.

(1) Includes Sports Bookmakers, On course, Betting exchange and Totalizator, from this period on.
