**Safety instructions**

DANGER! Electrocution hazard

On boats: If the device is powered by the mains, ensure that the power supply has a residual current circuit breaker (RCCB) or a ground fault circuit interrupter (GFCI). Installation, especially in potentially damp areas, must be in accordance

FAQ

Q: Can the cooler be used for heating food?

A: No, the cooler is designed for cooling food only.

Q: Can the cooler be connected to a regular household power outlet?

A: Yes, the cooler can be operated from an AC power supply in addition to a vehicle's DC power supply socket.

Q: Is it safe to leave the cooler unattended while operating?

A: It is recommended to ensure proper ventilation and periodic checks when leaving the cooler unattended for extended periods.
