Rise Baby Carrier

**AUTHORITY OR POWER GIVEN TO SOMEONE
TO DO SOMETHING**

Our goal is to empower you to do parenting your way. To help you live life as you want to. To have an active lifestyle, but also be able to spend lazy days at home. You choose.

We believe in you!

IMPORTANT! READ CAREFULLY AND KEEP FOR FUTURE REFERENCE.

Rise

Rise up every morning and be ready in a heartbeat. Janell Rise takes babywearing to the next level. Simple and smooth sliders and easy magnetic buckles make the baby carrier easy to put on and adjust. The Janell Rise allows you to instantly put on your baby carrier and switch between having your baby facing in towards you as a parent, facing forwards towards the world or on your back. Raising the bar of freedom in parenting.

CARRYING POSITIONS

Facing parent
From newborn to 3 years

Facing forward
From 5 months to 3 years

Back carrying
From 5 months to 3 years

SETTINGS

- Tighten and loosen the shoulder straps to adjust the carrier to your body and preferences.
- Loosen the shoulder straps for easy breastfeeding.
- You can transfer the weight between your waist and shoulders by adjusting the shoulder straps.
- Place the back yoke at the lower part of your shoulder blades.
- To tighten the waist belt, pull both waist belt straps forward.
- Neck support can be folded up and down. You can find the buttons on the inside of the the front panel and at

the inside of the side strap, connected to the magnetic buckle.

- When carrying forward facing, use the sliders to adjust the position of your baby.

*All adjustable parts are marked with a circle

SETTINGS – FACING PARENT

For carrying a newborn baby, place the baby facing you. The neck support should be up to the baby's earlobes. Make sure the child always has free airways in the baby carrier.

You can adjust the width of the neck support by tightening or loosening the front panel adjuster.

! For a baby that weighs between 3.2 and 4.5 kg you can place the baby's leg inside the carrier in a natural fetal position.

SETTINGS – FORWARD FACING

You can carry facing forward from around 5 months of age, or when the child has good neck and upper body stability.

Adjust the baby's sitting position by using the adjustable sliders and tilting the baby's hips forward. Put your hands under their knees and gently tilt the hips to provide a deeper sitting position.

Always have the neck support folded down when carrying forward facing.

SETTINGS – BACK CARRYING

When back carrying, your baby should be placed facing you.

The baby should be placed high up on your body. Make sure you can have eye contact with your child by looking over your shoulder.

NECK SUPPORT

For higher neck support, fold up the neck support and button it on the top part of the panel.

When folding down the neck support, fold it in and button on the inside of the front panel. You can adjust the height of the neck support by tightening or loosening the front panel adjuster i.e the tie cords found underneath the neck support.

THE MAGIC OF THE MAGNETIC BUCKLES

The magnetic buckles work just like normal buckles, only easier. Open the buckle by pushing the turquoise buttons at the same time. Buckle the buckle by holding one part close to the other and the strong magnet will do the rest. The weight is carried by the mechanical lock inside the buckle and not by the magnet.

WASHING INSTRUCTIONS

- Do not bleach.
- Wash by itself.
- Do not tumble dry.
- Wash in a washing bag to protect the buckles.

All fabrics are tested free from harmful substances.

Najell Rise does not contain any animal products.

HOW TO USE THE NAJELL RISE

1. Put on the baby carrier like a pullover sweater.
2. Attach the waist belt buckle.
3. Place the waist belt below your chest and above hips and tighten the waist belt.
4. Open the magnetic buckle's on the front panel, creating an opening for the baby's legs.
5. Hold your baby against you and lift the front panel to cover the baby's back/core. Make sure the legs are placed in the leg openings.
6. Buckle the buckles on the front panel and tighten the shoulder straps to preferred fitting.

Forward facing

You can carry facing forward from around 5 months of age, or when the child has good neck and upper body stability. Adjust the baby's sitting position by using the sliders and tilting the baby's hips forward.

How to back carry with Najell Rise:

Your baby can be carried on your back from 5 months, and when the baby has good head control and a stable neck. Make sure that you can see your baby, by looking over your shoulder, when back carrying.

Put on the baby carrier and place your baby in the carrier as above.

1. Loosen the shoulder straps and the waist belt a little.
2. Slide your left arm downwards under the webbing of the shoulder strap.
3. Slide your right arm under both shoulder pads along your body and at the same time carefully move your child around to your back.
4. Put your left arm through the loop of the shoulder pad. Tighten the waist belt and the shoulder pads, place the back yoke (now in front) at a comfortable position slightly above your chest.
5. You are ready!
6. Reverse the steps for removing the child from the carrier.

! Adjust the baby's sitting position by tilting the baby's hips forward. Put your hands under their knees and gently tilt the hips to provide a deeper sitting position.

GENERAL INSTRUCTIONS

- Read and follow the instructions before use.
- The soft carrier is intended for the child from 0 months age.
- Maximum weight of the child for which the baby carrier is intended for is 15 kg.
- Monitor your child when using the baby carrier so that the baby is securely seated at all times.
- Be aware of hazards in the domestic environment e.g. heat sources, spilling of hot drinks.
- Your movement and the child's movement may affect your balance.
- Take care when bending or leaning forward or sideways.
- Stop using the carrier if parts are missing or damaged.
- Regular inspection of the baby carrier for any signs of wear and damage.
- Make sure that the baby has sufficient space for breathing in the baby carrier.
- Only carry one baby at a time in this product.
- The carer should be aware of the increased risk of your child falling out of the baby carrier as it becomes more active.

- The baby carrier is not suitable for use during sporting activities e.g. running, cycling, swimming, skiing.
- Keep this baby carrier away from children when it's not in use.
- For children who cannot hold their own head, the child should have support up to their ear lobe. Adjust the height of the head support on the front panel.

WARNING

- Constantly monitor your child and ensure the mouth and nose are unobstructed.
- For pre-term, low birth-weight babies and children with medical conditions, seek advice from a health professional before using this product.
- Ensure your child's chin is not resting on its chest as its breathing may be restricted which could lead to suffocation.
- To prevent hazards from falling ensure that your child is securely positioned in the baby carrier.

SAFETY APPROVAL

Najell Rise is tested and approved according to European safety report TR16512.
